

Friction solutions²

Ceramic friction pad RY-C14

Material description

RY-C14 is a brass/bronze based sintered with high content of mineral components.

Delivery form

RY-C14 is delivered by Rydahls according to customer needs and requirements.

Applications

The material have a high dynamic/static coefficient for dry applications.

Technical data

Friction value (guide value), dynamic	≥ 0.50
Recommended surface pressure	$\leq 3 \text{ N/mm}^2$
Max. rubbing speed	30m/s
