

CEO change at Rydahls

After 27 years at Rydahls I have decided to look for new challenges. This means that Rydahls/OEM will change CEO later this year.

I am incredibly proud and happy to have had the opportunity to represent Rydahls all these years, both as owner and as CEO after Rydahls sale till OEM 2015. The experiences I have shared during this time with you, customers, colleagues and other partners, have given me fond memories that I will carry with me for the rest of my life. I started my career at the end of the 80s and working at Rydahls has vastly exceeded all my expectations of what working life would be like. It has been a fantastic time with a fantastic company!

Erik Rydahl

On the 15th of September I will work my last day at Rydahls, at that time there will be an interim CEO in place who will hold this position for the coming 12-24 month period.

If you have any questions, please feel free to contact me.

Erik Rydahl

New Business Area Manager for Spare Parts

As a consequence of Erik Rydahl leaving the company, a new Business Area Manager for Spare Parts will be recruited this Spring. Spare Parts has had strong growth and taken many important steps forward, where both our product offering has successively developed and digitalization has created new business. The Business Area Manager's task will be to lead the organization in continued growth and work closely with customers, suppliers and colleagues.

New interim CEO

From the 15th of September Johan Lyckow will take over the role of CEO for Rydahls for the following 12-24 month period. Johan, who currently is CEO for Batteripoolen AB, will divide his time between Batteripoolen and Rydahls. Batteripoolen and Rydahls have a number of commonalities which means that there will be positive effects for both companies. Johan has a solid background in industrial trade and is a competent leader which makes me confident in this solution.

Johan Lyckow

Jörgen Zahlin
Board chairman Rydahls
